To the Senate and House of Representatives:

I transmit herewith for the consideration of the Congress a revised statement, prepared by the Committee on Grades and Salaries under the executive order of June 11, 1907, for the reclassification and readjustment of salaries in the executive departments, and estimates of appropriations based thereon.

The reclassification of employees should be authorized now, even if the additional appropriations suggested can not now be made. The existing classification does not meet the needs of the service. The basis of the reclassification is character of work rather than amount of salary; it would avoid the need of special positions and result in much higher efficiency.

COMMITTEE ON GRADES AND SALARIES.

EXECUTIVE ORDER.

A Committee on Grades and Salaries in the executive departments shall be formed as speedily as practicable, to consist of one competent employee named by the head of each department and independent establishment, who shall prepare clear and consistent tables of estimates for positions and salaries in conformity with the schedule and recommendations of the Committee on Department Methods of January 4, 1907.

Officials will cooperate with this committee in arranging said estimates for presentation to Congress, in convenient form for comparison with the estimates prepared in the usual way required by law.

THEODORE ROOSEVELT.

SCHEDULE OF POSITIONS AND SALARIES.

[Committee on Department Methods, January 4, 1907.]

SUPERVISORY GRADE.

Chief clerks and chiefs of divisions.—Employees who perform supervisory, executive, and administrative duties. Salaries—$2,100 to $4,200.

CLERICAL GRADE.

Senior clerks.—Employees who are assigned to work largely supervisory, or requiring the highest order of clerical ability, involving much original thought, consideration, and investigation. Salaries—$2,100, $1,980, $1,860.

Examples of such work are the investigation of large and intricate cases, requiring familiarity with the laws and decisions of courts and with department practice and policy, and the drafting of action thereon; the conduct of such investigations with the aid of assistants, whose work must be directed and corrected; service as paying teller with large responsibility; acting as chiefs of sections or divisions, and preparing or laying out work for others.

Clerks.—Employees who are assigned to work more or less routine, involving responsibility, special ability, and original thought, consideration, and investigation. Salaries—$1,740, $1,620, $1,500.

Examples of such work are directing and instructing clerks of lower grades; expert stenography; editing; the ascertaining of facts independently in complicated cases, and drafting action thereon; serving as confidential clerk to head of department or bureau; bookkeeping involving an extended knowledge of department records and precedents and the handling of intricate accounts; recording complex and difficult cases and properly indexing the same; service in purchasing and issuing supplies, service as paying teller; examining money accounts requiring familiarity with the laws and with regulations and requirements of the Treasury Department.

Junior clerks.—Employees who are assigned to work of a routine character, requiring but little original thought or consideration, but requiring judgment, responsibility, and special skill. Salaries—$1,380, $1,320, $1,260, $1,200.

Examples of such work are preparing briefs of papers in a case for recording; expert filing; examining property returns; proof reading; issuance and distribution of supplies; examining vouchers and disbursing accounts, under the application of simple standards and requirements; recording cases and transactions where considerable judgment is required to determine the relative importance of factors, and preparing an adequate index thereof; the ascertaining of facts independently and drafting action on average cases; composing and preparing letters for official signature; stenography requiring skill and practice; bookkeeping involving a knowledge of the theory of accounts and departmental records and precedents.

Under clerks.—Employees who are assigned to work of a simple or routine character requiring care, accuracy, and skill. Salaries—$1,080, $1,020, $960, $900.

Examples of such work are mere copying and typewriting; simple indexing; filing cards and papers; briefing contents of letters or documents on back; preparing letters by filling blank forms for official signature; mailing or dispatching; easier stenography; simple bookkeeping, requiring but little knowledge of the theory of accounts.

SUBCLERICAL GRADE.

Employees whose duties are not clerical or mechanical, but require some special skill, or involve personal responsibility, as messengers, watchmen, skilled laborers, sorters, and counters. Salaries—$840, $780, $720, $660.

Employees engaged in rough and unskilled work, as laborers generally. Salaries—$660, $600.

Employees who enter the service at an early age and are engaged in light work, as messenger boys. Salaries—$480, $420, $360, $300.

Employees whose work occupies only part of the time each day, as charwomen and janitors. Salaries—$360, $300, $240.

PROFESSIONAL, SCIENTIFIC AND TECHNICAL, AND MISCELLANEOUS EMPLOYEES.

The salaries of these shall be assimilated, as far as practicable, to the scale established for clerical and higher grades. The number and variety of designations shall be as small as practicable; and the duties assigned to such employees shall be confined as far as possible within the lines indicated by their titles and for which they may have passed examinations.

Any line of work not herein mentioned should be assigned to the grade to which, after careful comparison, it seems most nearly related.

SKILLED TRADES EMPLOYEES.

No fixed scale of compensation is recommended, but whatever salaries are determined upon should conform to the grades fixed in the schedule.

The design of the foregoing schedule is to promote the efficiency of the service by providing entrance salaries sufficiently high to attract competent persons; such a gradation of salaries as to assure frequent promotion, as a stimulus to effort; the higher salaries sufficient to develop and retain the best expert service; and an equalization of salaries in all the departments, according to character and responsibility of the work performed. The salaries proposed are multiples of 12, for convenience in making the monthly payments required by law.

In preparing tables for the several offices and bureaus these two general rules have been observed:

1. To give more adequate compensation to the men who furnish directive power, executive ability, and special or technical knowledge.

2. To provide for the administrative and clerical force a scale of pay which will permit all who enter the civil service to rise by diligence and efficiency to a moderate living salary in a reasonable time.

Beyond the moderate living salary found in *the grade of clerk*, promotions to the senior clerk and supervisory grades will come more slowly, by selection on the grounds of special fitness and approved ability.

Cumbersome and unnecessary titles have been eliminated or simplified, as far as possible.

In obedience to the executive order complete tables were prepared regrading, under the new scale of salaries, the positions listed in the official estimates for the year 1909. These tables were transmitted to Congress by the President February 11, 1908, and printed as House Document No. 648, Sixtieth Congress, first session.

Under informal instructions recently received, the committee have in the following pages revised the tables relating to the executive service in Washington, bringing them down to date by basing them upon the current official estimates for the fiscal year 1910 In this task the State Department has been represented by Mr. Stephen H. Quigley, Mr. Dean having left the city; and the Government Printing Office by Mr. W. J. Dow, in place of Mr. Post, who was unable to serve.

Respectfully submitted.

JOHN W. HOLCOMBE, *Chairman.*

NOTE a.—The recommendation made to drop 5 assistant messengers, at $720 each, and 1 laborer, at $660, total, $4,260, and substitute 5 packers, at $840 each, total, $4,200—a reduction of $60 in total appropriation—is in order that the stamp vault may be provided with the services of efficient men, capable of handling properly the work of packing internal-revenue stamps, and for the further reason that it has been found almost impossible to keep men of acquired efficiency because of inducements offered elsewhere. The work of putting up and marking packages of internal-revenue stamps requires skill, rapidity, education, and trustworthiness, and the work of the stamp division has been embarrassed the last two or three years through the loss of men of this type who were transferred or resigned because of offers of better pay elsewhere.

NOTE B.—The duties required of messengers are of much greater importance than those of assistant messengers, and in view of the large amount of messenger work to be performed in this bureau, the number of such employees has for a long time been inadequate.

The assistant messengers, who have been acting in the capacity of messengers, possess a higher degree of efficiency for the duties required of them than ordinary assistant messengers or laborers.

[a] Decrease.
[b] The small per cent of increase is due to a change in the organization of the Forest Service, under which six administrative districts will be established in the West and a large number of the employees in Washington transferred to the field.

NOTE.—In submitting the estimates of appropriations for the fiscal year 1910, the Secretary of Agriculture transferred to the statutory rolls all clerical positions heretofore carried on the lump-fund rolls, while all professional and technical places on the statutory rolls were transferred to the lump-fund rolls. In preparing the following tables, these transfers have therefore been taken into consideration in computing totals of places and appropriations.
